This is truly such a FUN activity for a gathering because it provides a shared experience for all of your guests to enjoy as a group!

## A Note about Flower Selection:

Renegade Flower Farm selects hardy annual flowers that will hold up in the heat as well as have a long vase life as a cut flower. Some flowers that we grow are more delicate & won't last as long as a cut flower if they are assembled outdoors in the heat. If there is a particular flower that is important to you that we grow, or color scheme you would like to have represented, please let us know & we will do our best to accommodate you.
